

## What do they **THINK & FEEL?**

Is the weather  
is good

Is this is the  
speed limit

Is the speed is  
ok to cross the  
school  
premises

Whether this  
is a school or  
hospital  
region

Usage of  
weather  
monitoring

## What do they **HEAR?**

change in  
signs based  
on the  
situation

speed limit  
change based  
on traffic  
condition

## What do they **SEE?**

School zone  
timing

## What do they **SAY & DO?**

to trace the  
weather

to trace the  
traffic

to spot the  
accidental  
zone

speed  
limiter

## **PAIN?**

more foggy  
weather makes  
signs invisible

bad weather  
makes the traffic  
detection  
difficult

## **GAIN?**

Gives the driver  
a clear visibility  
of traffic  
condition

school and  
hospital zone  
accident can  
be avoided
